

New Discussion On Bridge At Emerald Bay December 14

SACRAMENTO — (CNS) — The state department of public works has called for a new discussion of an all-year highway at Emerald Bay, Lake Tahoe, on the basis of new reports which suggest low-level bridges which would minimize scarring of the landscape.

A bridge to replace the present road, which is blocked by snow for nearly six months a year, has met objections in the past because it would run through Emerald Bay and D. L. Bliss state parks. The state park commission has suggested consideration of alternate high level routes.

Robert B. Bradford, director of public works suggested a joint meeting between the division of highways and the park commission for December 14 in Sacramento.

J. C. Womack, state highway engineer, made no recommendation in his newest report. The report outlined advantages and disadvantages of two alternatives, a high-level route on about the same location as the present road and a low-level bridge.

The bridge considered before had required a fill of 35 to 40 feet across the flat area north of Emerald Bay. One of the alternatives in Womack's new report would lower the fill to less than 20 feet by constructing the bridge on a descending grade and by using a type of construction which would minimize scarring of the landscape.

The other low-level plan would provide a level grade on the proposed bridge but substitute a viaduct for an embankment north of the bridge, also resulting in less scarring of the landscape.

All of the three plans studied for the high route would require a 1,300 foot tunnel through the slide area by Bay View Road and a 1,500 foot snow shed from the north portal of the tunnel toward Eagle Falls Creek. Cost of the high route would be \$8.6 million, as compared to costs from \$5.7 million to \$6.9 million for the low-level routes.

Board Approves Full-Time DA Job

Legislation to establish the office of district attorney of Nevada County as a full time office, with a salary of approximately \$14,500, was initiated last week by the Nevada County Board of Supervisors in adopting a resolution to that effect.

This was a resolution very similar to that approved by the Nevada County Grand Jury last month. The motion for adoption of the resolution was placed by Supervisor Guy Robinson and seconded by Henry Loehr.

Copies of this resolution and that of the grand jury will be directed to Nevada County's legislators in the California State Legislature — Assemblyman Paul J. Lunardi and State Senator Ronald Cameron, who will submit the necessary legislation at the session opening in January.

If adopted by the state legislature, the change, including salary, will not become effective until the next district attorney four-year term commencing January 1, 1963, after the 1962 election.

Houlgate Named Vice President Of Clements Rock Co.

Ernest L. Clements, chairman of the board of the Clements organization announced the appointment of John E. Houlgate, as vice president of Clements Rock Products, Inc.

The Clements Rock Products, Inc. plant is located in Truckee. Houlgate has been superintendent of this unit for two years, during which time the plant has figured prominently in the rapid expansion of the highway system in the Truckee-Tahoe area, fulfilling state highway construction contracts as well as functioning as a principal supplier of road building materials to the area.

After graduating in 1946 from the University of Alberta, Houlgate spent two years at the University of California in Berkeley in post-graduate work in business administration and chemical engineering, earning his M.Sc. degree. In 1950, after two years with Continental Oil Co., he came to Clements, serving in the capacity of project engineer and superintendent.

Jack and Bonnie Houlgate are particularly pleased with this appointment since it confirms their wish to establish themselves permanently in the area which they and their four children have found so agreeable. Construction of their new home in the Donner Trails Estate will begin next spring.

Land Near Here Is Sold By Tollefson

Approximately 1,000 acres of property at the Nevada County border along Highway 89, north of Truckee, was sold for more than \$150,000 according to stamps on the recorded sale at the Nevada County Recorder, Ted Kohler's office.

According to the descriptions in the sale most of the property is east of Highway 89 but a portion of it crosses the highway to the west side also where Sagehen Creek intersects the highway. This places the area just north of the proposed and under construction Prosser Creek dam.

Sherman and Dorothy E. Bliss of Sacramento and Adam J. Richter are the recorded purchasers from C. A. and Jessie I. Tollefson. Sale was recorded November 21.

Had it not been for the fast thinking of William Campbell, a fellow worker from Truckee, the injury may have been fatal. Campbell knocked Cooper's hand away from the wire with a hammer and he was given artificial respiration before going to the hospital.

Cars Halting Snow Equipment To Be Tagged On Streets

Drivers who leave their cars parked on the streets and highways during a storm, thus preventing adequate operation of snow removal equipment, will be cited.

This word was relayed from the county road department by Supervisor H. G. Loehr who said that during the recent storms cars were left on the streets in such a manner that snow plows were forced to go around them and were not able to accomplish the clearing job.

There is a law against such practice, Loehr said, and the sheriff's office had been advised to cite owners in the future without exception.

Loehr also pointed out that the county's insurance no longer covers damage done to cars damaged by snow removal equipment and asked that all car owners cooperate in keeping the streets and roads free of vehicles during the operation of equipment.

"We sincerely regret the necessity of issuing citations," Loehr said, "but we find that with the greatly increased mileage in the area, our equipment is hard pressed to maintain the thoroughfares without the confusion of plowing around cars and trucks left parked on the streets."

Fitzgerald Trial In Superior Court To Start On Monday

Stanley William Fitzgerald, 39, who is scheduled to go on trial next Monday for a murder he is alleged to have committed near Truckee August 3, pleaded not guilty to four felony counts resulting from his recent escape from the Nevada County jail when he was arraigned before Judge Vernon Stoll last week.

Robert Fugazi of Truckee has been appointed by the court to represent Fitzgerald on the murder charge as well as the four felony charges resulting from his escape. District Attorney Harold Berliner is conducting the prosecution.

Specifically, Fitzgerald is charged with escape, robbery with a deadly weapon, assault with a deadly weapon and grand theft auto. Fugazi had moved that two of the three charges be amended as to their reference to deadly weapons since the prosecution has not shown one was used. The motion was denied.

Deputy Sheriff Carl Arbogast claimed that he was forced at knife point but both Fitzgerald and his adult escape partner Bob Smith deny a knife was used. None has ever been produced.

However, Judge Stoll ruled that the point did not have to be proven in the arraignment and that there was sufficient evidence that a crime had been committed. Trial date was set for January 16, 1961. Meanwhile Fitzgerald was remanded to the custody of the sheriff in lieu of \$5,250 bail. He is also being held without bail pending the murder trial.

Convoy System To Prevent Blocking Road To Be Tried

A new convoy system, designed to prevent lengthy tie-ups of traffic over Donner Summit during heavy snow storms, has been inaugurated on a trial basis, by the division of highways and the highway patrol.

Frank Fox, superintendent of highways, and Lt. Oliver Ledford, commander of the local squad of the highway patrol, explained the plan before a meeting of the Truckee Donner Chamber of Commerce meeting at Brown's last week.

Under the plan, heavy congestion of traffic will be prohibited on the two lane section of Highway 40 between the freeways which end at Kingsvale and near Donner Monument. During storms when conditions justify, all traffic will be halted on the freeway at Kingsvale and near the Truckee quarantine station.

Highway patrol officers, supplemented by tow trucks, will convoy from 50 to 100 vehicles each way alternately, thus leaving one traffic lane free of traffic at all times. This, they explained, will allow for emergency vehicles, such as fire trucks or ambulances, to proceed when required.

It was pointed out that during the storm two weeks ago there was such a jam of traffic along Donner Lake and up the grade, that it was impossible for emergency vehicles to travel. This condition existed for six to nine hours and created a hazard.

Fox said it was his intention to halt all traffic at the chain control which would be established and hold it there until the two-lane portion of the road was free of cars and trucks and then permit the convoyed string to move through the summit area. In event a car gets stuck or cannot proceed, a nearby tow truck will be on hand to lend a hand.

This method will be followed, it was explained, only when the normal flow of traffic becomes congested and threatens to create a road block.

It is proposed to have chain installers available both at Kingsvale and at the monument for those who desire this service, although this will not be governed by either the division of highways nor the patrol, which have no control over the chain service whatever.

Heavy underpowered trucks, house trailers and similar vehicles may be prohibited from traveling over the summit during heavy storms.

District Attorney

Elect of the First District, was in-
troduced to the Board by Super-
visor Smart and was invited to
take a chair at the Board table.

The minutes of the previous

meeting were read to the Board by
the Clerk and a motion was made,
duly seconded and passed unani-
mously, approving the minutes as
read.

The County Clerk presented a
certified Abstract of the total votes
cast in the November 8, 1960 Gen-
eral Election and stated to the
Board that as a result of the votes
cast, it appeared that Mr. Ricker
was elected to the office of Super-
visor of the First District. A mo-
tion was made by Supervisor

Smart, duly seconded and passed
unanimously, directing the Clerk
to issue a Certificate of Election to
Mr. Ricker upon the filing of
his Campaign Statement.

The County Auditor presented

the Board with the Budget Report
from July 1 through November
16, 1960 and a motion was made
by Supervisor Loehr, duly second-
ed and passed unanimously, ac-
cepting the report as rendered.

A lengthy opinion was read to
the Board by the Clerk from the
District Attorney which in essence
stated that Truckee is and has been
for many years an incorporated
city in the County of Nevada. No
action on the opinion was taken
by the Board.

The County Auditor then pre-
sented the Board with the Claims
Register showing thereon the
amounts due and payable by the
County and a motion was made by
Supervisor Loehr, duly seconded
and passed unanimously, approv-
ing the following claims as shown:

Fund Numbers Amount

General Fund 1613-1798 \$24,788.74

Hospital Fund 329-363 8,049.87

A discussion was entered into
with the Board on the Ernst and
Ernst Survey Report and Super-
visor Loehr suggested to the Board
that the salary portion of the re-
port be adopted by the Supervisors
immediately and the Departmental
Management Surveys be studied at
a more leisurely pace. There was
no action taken upon the recom-
mendation.

The County Welfare Director ap-
peared before the Board and en-
tered into a discussion on authori-
zation for permits to the County
Hospital and also on the existing
Tahoe Forest Hospital Contract,
which provides emergency indig-
ent service for residents in and
around the Truckee area. No ac-
tion was taken by the Board at this
time.

Mr. Clare Hughes appeared be-
fore the Board and upon a motion
made by Supervisor Loehr, duly
seconded and passed unanimously,
was issued a minute order direct-
ing him to purchase a four-wheel
drive pickup truck for the Road
Department from the Sierra Truck
and Motor Company.

The Board then entered into a
discussion with Mr. Hughes on the
disposition of the surplus lands in
the Chicago Park Townsite owned
by the County and the matter was
referred to the District Attorney.

Mr. Harold Berliner appeared
before the Board and gave to the
Board the reasons why he felt a
full-time District Attorney was
needed in the County of Nevada.
The Clerk read to the Board pro-
posed Resolution No. 60-36 setting
forth the salary of \$14,500.00 for a
full-time District Attorney, and a
motion was made by Supervisor
Robinson, duly seconded, to adopt
the resolution. Upon a roll call
ballot, a unanimous vote was re-
corded.

At this time a motion was made,
duly seconded and passed unani-
mously, to adjourn for lunch to
reconvene at 1:30 p. m.

peared before the Board and request-
ed the Board to pass a Proclamation
calling for December 7 to be Civil
Defense Day. A motion was made,
duly seconded, that the day of De-
cember 7 be Civil Defense Day,
and upon a roll call ballot, a unani-
mous vote was recorded adopting
the Proclamation.

At the request of Mr. Charles
Weeks, the County Auditor ex-

plained Public Law 85-606 as it
would effect the County of Nevada
and a motion was made by Super-
visor Robinson, duly seconded and
passed unanimously, authorizing
the Civil Defense Director to sign
the preliminary papers necessary
to participate in Public Law 85-606.

At this time the District At-
torney presented the Board with a
proposed resolution calling for a
public hearing for the zoning of
the Donner Lake area. A motion
was made by Supervisor Loehr,
duly seconded, to adopt Resolution
60-37 and upon a roll call ballot,
a unanimous vote was recorded
adopting the resolution.

The matter of the Appeal of
Wayne and Hilda Kirby for the is-
sue of a Use Permit for a
Trailer Park in the Gold Flat was
at this time taken up by the Board.
Mr. John Larue, Attorney at Law,
appeared before the Board on be-
half of the Kirbys and certain resi-
dents of the area spoke in favor
of over-ruling the Planning Com-
mission's refusal to issue a Use
Permit. After a discussion, the
Board voted to uphold the Plan-
ning Commission's decision.

This being the time heretofore
set for a Public Hearing for the
Zoning of Wheeler Acres as a re-
stricted R-2 District and the Chair-
man asked if there were persons
in the audience who were against
the zoning area. There were none
appearing.

The Chairman then asked if
there were any persons appearing
in favor of the proposed zoning
and Mr. F. W. Dailey appeared and
stated that he was spokesman for
the neighborhood and that they
were all in favor of the proposed
zoned area.

The District Attorney then pre-
sented the Board with Ordinance
No. 238, to amend Ordinance No.
196, and creating a zoned area in
Wheeler Acres. A motion was
made by Supervisor Smart, duly
seconded to adopt Ordinance No.
238, and upon a roll call ballot,
a unanimous vote was recorded.

Mr. Ellwood Ellinger appeared
as spokesman for a delegation of
residents of the Lower Colfax Road
and requested that that road be
taken into the County Road Sys-
tem and brought up to specifica-
tions.

Mr. Robert Graham, County
Road Commissioner, present in the
Board room, explained to the per-
sons in the audience that the Road
Department could not work on a
road that is not an accepted Coun-
ty Road and that the Supervisors
could not accept roads until they
were brought up to certain speci-
fications. A fairly lengthy discus-
sion ensued and the matter was
deferred until the meeting of
December 13 for further study.

A motion was made by Super-
visor Loehr, seconded by Super-
visor Smart and passed unani-
mously, to adjourn to meet again
on December 1, at 10:00 a. m.

Now that Thanksgiving is over, many people are busy planning for Christmas. Looks like we will have a white one this year with all the early snow we have been having. It has been quite a while since we have had snow on Thanksgiving Day. All the ski resorts officially opened last Thursday which looks like a busy winter. More and more people seem to be ski enthusiasts but so far, I haven't gotten up enough nerve to try this

sport.

Mr. and Mrs. Arnold Verdi have been in Los Angeles the past few weeks and will be returning home soon. George Brack is managing the motel while they are away and George is expecting to move into his new home any day as it is nearly finished.

Mr. and Mrs. Roy Slate spent Thanksgiving in Rodeo with their families and the George Hansen family spent the holiday in Sacramento with theirs. Many other families traveled to various towns and many had holiday visitors here at Donner Lake. Holidays are nice when families get together

and celebrate with their children. I am looking forward to Christmas this year as our son Harold just might make it home in time, from Germany. He is in an army hospital there at the present with frozen hands as he was caught in a snowslide while trying to climb the Zugspitz, the highest mountain in Germany. If all goes well, we will have all six of our children home for Christmas, including our granddaughter.

Ivan Tofft has returned to Donner Lake after spending a week doing carpenter work on his Sacramento home.

The ladies auxiliary will have their next meeting out of town and hostesses Laura Horman, Charlotte Harris and Helen Doolittle have been busy making arrangements. It will be a Christmas party and as soon as everything is definite, members will be notified. The meeting is scheduled for December 15, so plan to go and take a friend.

People at Donner Lake were saddened this week to hear of the death of Dave Tremayne. He was at work with a construction company in Yuma, Arizona when he was electrocuted. The Donner

firemen will especially remember Dave for his hard work as well as talents displayed in the organizing of the department in 1957. He was assistant fire chief and one of the first board members to help get the organization started. He was a Donner resident until just a year ago when he left for Arizona. Besides his wife, Dave leaves his daughters, Sondra Tremayne and Sharon Brown.

The Donner firemen are appealing to all property owners at Donner Lake to send in their yearly donation for 1960 if you have not already done so. Members of the ladies auxiliary are busy preparing letters now for the 1961 dues. The firemen are in great need as insurance is due again on the equipment and more work needs to be done on fire truck No. 2, so they can operate efficiently. Last Friday Student Body President JoAnn Pomin, Vice President John Holley, Varsity Cheerleader Tina Grundemann, Captain Brian Calhoun and Mr. Brehler attended South Tahoe's award assembly. During that time they presented the revolving trophy to the student body.

The journalism department has been publishing a fine school newspaper every two weeks. The excellent art work has been done by Tinda Mockitas and others working diligently as Francie McGinnis, Steffie Cozzi and the reporters.

BACK AWAY FROM THE BACK-UP BALL!

The back-up ball gets its name from the path it takes down the alley. It begins to the left of center, rolls straight down the lane and moves to the right as it nears the pins, as can be seen in the illustration.

Most beginners, particularly women and youngsters, will roll this type of ball when they first start bowling. It's a bad delivery, however, and I think everyone should avoid it. It's the result of a weak wrist which automatically turns to the right as the ball is delivered. That puts some left-to-right spin on the ball which takes over after the initial momentum has been overcome.

The back-up is a bad ball to roll because the ball is rolling away from the 1-3 strike pocket when it hits the pins. Even if it goes into the 1-2 pocket and is rolling toward the 5 pin, chances are it will deflect away from the pin because of the weak action of the back-up spin.

Some experienced bowlers like to use this delivery for shooting at the 10 pin in the right corner of the alley. I don't recommend this because I think a bowler should use the same delivery for shooting at spares as he uses in shooting for strikes.

If the back-up ball is a part of your game, why not switch to the straight ball. It's easy to master. Just keep the wrist firm at delivery and let the ball roll off the fingers with no lift.

A special feature of the evening was a demonstration on "holiday decor" given by Mrs. Lorraine Ducharme.

DONNER SUMMIT NEWS

By LLOYD W. GAY

SUMMIT WEATHER

A snowstorm over Thanksgiving weekend dropped an additional 19 inches of snow at Soda Springs, to bring the season total to 89.5 inches. It is interesting to compare Soda Springs total November snowfall of 86.7 inches with the long time record of the Southern Pacific Railroad at Summit, near Norden. These figures, printed by Breuners as Olympic Games publicity, go back to 1896 with a 125 inch November total snowfall before equalling or exceeding this November's snowfall. The maximum temperature for the past week was 45 degrees on November 21, and the minimum was 10 degrees on November 28. The snowpack on the ground was 42 inches on November 28.

NEW LODGE OWNERS

Cy and Missie Maughan of San Jose have purchased the Hoyfjell Lodge at Soda Springs from John Zahara, and are setting up operations for the winter season. The Maughans, assisted by their son Bob who will serve as business manager, will cater principally to organized groups during

WEATHER

The weather really did act up over the Thanksgiving weekend, we had strong winds, snow and sunshine. The countryside looks like winter wonderland.

DINNER

We enjoyed having Thanksgiving dinner with our daughter Marge and husband Wes. Our grandson Dave Ashton visited with us, it is such a good feeling to be around your close ones especially during the holiday season.

VISITORS

Paul Robinson and family from Canoga Park visited for a week. They helped Gwen Robinson celebrate her birthday. Happy birthday Gwen.

GUESTS

The Warren Strahm had as their guests over the Thanksgiving holidays, Everett and Dolores Nygaard and their nephew Joe, from Sherman Oaks. They wanted to see and play in snow, it seems that the weatherman did his part to please them.

HAPPENINGS AROUND

Mr. and Mrs. Hank Gall of Kings Beach and Mr. and Mrs. Jim Marrott of Truckee were the honor guests of Harolds Club, Tuesday evening, November 15.

It seems that there is always someone moving in or out of this community of ours. We hear that Mildred Mathias left our fair place until next April.

Harry Johanson returned last week after spending several grand months in Sweden, but he says it is good to be back in the U. S. A. and home.

We saw Joe Ross of the Trade Winds in Kings Beach, he is planning on making some improvements on his popular place so that he will be ready for the usual vacationers.

RECUOPERATING

Robert (Bob) Moustris must be recuperating okay, after his serious operation. We hear that he and his wife Marie spent Thanksgiving with his folks in Roseville. We are sorry to hear that Bob's father is not doing so well after undergoing surgery recently.

It is a waste of time to find fault with yourself when there are so many—ready, willing and eager—to do it for you.

TAXABLE SALES FOR COUNTY ARE HIGH

SACRAMENTO — (CNS) — The state board of equalization today announced a record second-quarter high in retail sales in California was reached April-June, 1960. The board said transactions jumped to \$5,875,808,000 during the quarter, but outlined the per cent of increase is the smallest since 1959. The transactions, however, were up .9 per cent from last year for the same quarter.

In Nevada County, taxable transactions reached \$6,286,000, on which a tax of \$188,580 was collected by the state. This showed an increase of 4.4 per cent from the second quarter of 1959.

NAVY SPEAKER TELLS OF WAR STRENGTH

TAHOE CITY—Lt. Roy Wolford, U. S. Navy, told Tahoe City Rotarians at a recent dinner meeting at Tahoe Inn, that despite any reports to the contrary, the United States is better prepared for war than any other country in the world and that fact is pretty well known abroad.

He said we have submarines that can hide indefinitely under the North Pole ice cap, that these submarines are loaded with the latest type missiles that can hit a target up to 1,500 miles distance without surfacing and the accuracy is pretty good at greater distances.

In the air we have 28 satellites to Russia's five and we are ahead in other phases from the air, the speaker said.

Regarding undersea warfare, the lieutenant said, science is now placing emphasis on oceanography and hydrography which could play a very important part in undersea warfare. He said we are now fighting an ideological war and he

going to live in. The students who are doing an extra good job are Joanne Ziegler, Darrel Lausche, Beverly Bereman, Darrel Cernusak, Howard Price, Phil Thompson, Bruce Templeton, Paula Martin, Calia Manning, Linda Gerlis, Steve Felte and Dale and Jill De Silva, Bill Heckman, Bob Mondino, Stephen Newberry, Larry Tiller and Mike Thomas.

EIGHTH GRADE: Our movie program has been very successful. We have made \$95 for our trip to Sacramento. Everyone has made contributions toward our field trip. Wendy Boatman's father has contributed refreshments for our movie. Everyone is doing their best to raise the money.

urged every man and woman to concentrate and act in the best interest of Americanism and peace with the world at large. He thought war would come only as a last resort and that Russia knew too much of our preparedness to start one.

Lieutenant Wolford, a recruiting officer at Reno, Nevada, said 53 colleges in the United States are offering courses in science to young men and women with all costs paid. He urged that young people enlist in some branch of the service.

Herbert Meyer, metal mechanic first class who accompanied the lieutenant showed a color film of the marines landing at Lebanon in 1958 when an uprising threatened

there. Ralph Bly presided. Twenty-six members attended.
